Socket & Bit Set

Features of Case

With 3 components of SOLID materials and SMART design, they perfect the combination of sockets, bits and accessories for the EXPERT needs.

Durable MATERIAL

TPR MATERIAL

PC MATERIAL

ABS MATERIAL

A smart prevention from shoplifters.

Box size: 145 x 96x 50mm

Outstanding **TPR Material**

The injection case features high impact strength TPR material, providing not only soft texture, but also resistance to chemicals and weathering.

Super Quality **PC Material**

It makes the products more valuable with the highly transparent and clearly attractive finish. Furthermore, its high impact-resistance and scorch-resistance perfect the products comprehensively.

Excellent Grade **ABS Material**

The properties of impact-resistance and toughness give the tools perfect protection.

Features of Case

SMART Design

The best structure ever for bits layer

- Visual Aid : Specifications are clearly marked.
- User Friendly : Bits arranged in 60 degree standing position are favorable to spot and pick up.
- Space Saving : The layer folds automatically once the lid closes for Space Saving.

Spring loaded

ACE Foam Tray System

Ultimate design perfectly suits a wide range of products. It provides great tool organization and ensures an excellent fit.

Various surfaces for options

EVA / PE base for choice

Double Blister

- The “**See-Through**” packaging clearly shows the contents and product information.
- With interactive “**Try-Me**” packaging, it impressed and convinced consumers that “It’s a WORTH Buying”

Users Interact With The Packaging

Color Sleeve

- This sturdy packaging has full color printing, set description and brand identification
- It also provides the customers with detailed product's information clearly and directly.

Display Box

- Great eye-catching advertisement for products.
- 100% recyclable, environmentally friendly.
- Professional design and delicate quality.
- Innovative and bespoke design based on customers' requests.

Package / Contents

Item no. 932046

46

- 12- Sockets:

Expert™

Socket & Bit Set

KH2400

Slim Head Design

Slim head design allows users to easily operate the ratchet in limited and confined spaces.

Coupler

With the coupler, users can install with all types of bits in the jobsites.

Great Accessibility

With the small Ratchet Head, the Stubby Ratchet provides more accessibilities in confined and narrow spaces for users!

Ergonomic Design Handle

Slim and very handy design is much more friendly and convenient for users and prevents careless slip-off from happening.

5 Degree 72 Teeth / Reversible Arc 7.5 Degree 48 Teeth / Reversible Arc

Rotation with 5 & 7.5 degree (72 & 48 teeth gear arc) facilitates work in confined area.

Reversible Lever Switch

Flip design helps lever switch more easily to reverse ratchet action direction.

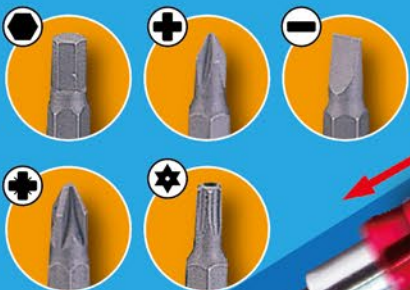

KH2400 & Bit Holder

Bit Holder

Magnetic Quick Release Bit Holder

By simply pushing the cap of bit adaptor forward to drop out the bit by the least effort.

Magnetic quick release bit adaptor installs bits tightly and releases bits quickly and easily.

Compatible Use

Magnetic Bit Adapter can ALSO be installed on cordless screwdriver for more professional uses!
