Every production step is accompanied by a comprehensive control procedure guaranteeing the precision and consistency of the quality and providing extremely high torque, 50 % more than DIN standard.

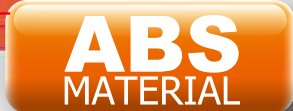

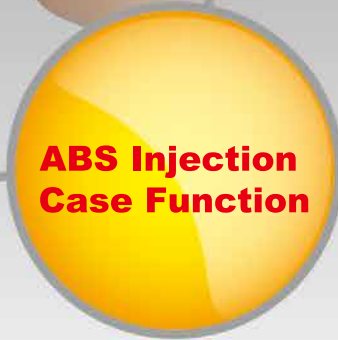

EASY TO OPEN WITH 2 THUMBS!!

Identical Magnetic Polar Repulsive Bounce-up Unlock

4 identical magnetic polars repel each other in each corner of tool case make users be able to open tool case easily with just 2 thumbs when pushing unlock bottoms.

50,000 Times Hinge Open & Close Test Proved!!

Injection tool case with its strong and durable hinge made from special fiberglass material solves user's constant worries that ordinary tool cases always can not afford to resist the lid open and close up frequently.

Anti-slip Design for Secure Uses / ABS Material

With anti-slip design of tool case, it is more secure to prevent any damage of tool case and tools spread out by accidental falling. Also, the injection case is made of ABS material and it is more durable than the others!
